JOB VACANCY: SENIOR WILDLIFE CAMPAIGNER

JOB DESCRIPTION

About EIA

EIA investigates and campaigns against environmental crime and abuse. Our undercover investigations expose transnational wildlife and forest crimes. We work to safeguard global marine ecosystems by addressing the threats posed by plastic pollution, bycatch and commercial exploitation of whales, dolphins and porpoises. Finally, we reduce the impact of climate change by campaigning to eliminate powerful refrigerant greenhouse gases, exposing related illicit trade and improving energy efficiency in the cooling sector.

EIA’s activities come under four programmes of work: Climate, Forests, Ocean and Wildlife. EIA's Wildlife Program aims to reduce wildlife crime globally and consists of three core campaigns focused on Asian big cats, Elephants and Pangolins.
