

Closing the Gap

Strengthening the Global Methane Pledge with a blueprint for effective governance

Institutional strengthening	Capacity-building and training	MRV	Policy development and implementation	Pilot and demonstration projects
Bosnia and Herzegovina – National Consultant	Bosnia and Herzegovina – Support for Coal Mine Methane (CMM) project concept development and capacity-building on finance	Central African Republic – Deliver methane emission and mitigation assessments for the livestock sector	Brazil – Contributions for Brazilian National Strategies for Agriculture Sector decarbonization	Accelerating methane reductions in rice production systems through market-based mechanisms (AMR) (Asia and the Pacific)
Benin – Expert Coordination of National SLCP Planning Support	Côte d'Ivoire – Training workshops and guidance for methane leak detection and repair in the oil and gas sector	Cambodia – Deliver a Tier 2 GHG inventory for the agriculture sector	Vietnam – Enhancing agricultural methane ambition in Vietnam's climate commitments	Accelerating methane emissions reductions in the Latin American dairy sector through the use of market-based policy instruments
Democratic Republic of Congo – National SLCP expert	Gabon – Build capacity and make the case for enhanced SLCP actions	Nigeria – Development of Tier 2 Emission Inventory and Mitigation Assessment for the agriculture sector	Cote d'Ivoire – Deliver an agriculture sector strategy for SLCP mitigation	Ghana – Build capacity on paddy rice AWD technology to inform 2025 NDC update
Central African Republic – National SLCP expert	Jordan – Deliver policy analysis and recommendations on SLCP mitigation	Panama – The Contribution of sustainable intensification of livestock to the reduction of methane emissions	Colombia – Develop an agriculture sector strategy to inform NDC update	Pakistan – Enhancing and Enabling Climate Ambition FOR SLCPs Management
Côte D'Ivoire – Expert coordination of National Planning Support	Maldives – Deliver trainings to increase integrated GHG, SLCP, and air pollutant mitigation action	Gabon – Deliver a methane emissions inventory, mitigation plan and MRV framework for the oil and gas sector	Nigeria – Support to Nigeria for methane mitigation from oil and gas sector	Argentina – Supporting Argentina from NDC to Action - Methane Reductions through Organic Waste Diversion & Use

Institutional strengthening (cont'd)	Capacity-building and training (cont'd)	MRV (cont'd)	Policy development and implementation (cont'd)	Pilot and demonstration projects (cont'd)
Cameroon – National Consultant	Togo – Build national planning capacity to implement and monitor priority SLCP and methane mitigation measures	Iraq – Deliver a national methane emission inventory and mitigation assessment for the oil and gas sector to support Iraq meet its mitigation goals for the sector	Argentina – Update and improve SLCP mitigation assessment and deliver a methane roadmap	Central African Republic – Deliver a waste methane assessment for the city of Bangui
Colombia – National Consultant	Uganda – National SLCP coordination and capacity-building in Uganda	Benin – Deliver MRV framework for NDC update	Bosnia and Herzegovina – Develop a National SLCP Plan, National Methane Roadmap, and MRV	Costa Rica – Accelerating actions to improve organic waste management and reduce methane
Dominican Republic – National SLCP expert and/or team	Togo – Capacity-building to reduce SLCP emissions from the waste sector, with consideration of gender	Morocco – Deliver methane assessments and roadmap for priority mitigation measures in key source sectors	Bosnia and Herzegovina – Align National Energy and Climate Plan (NECP) with 2025 NDC	Iraq – Waste sector strategy to support NDC Action Plan and NAMA project
Micronesia – National Consultant		Moldova – GHG and SLCP emission scenarios for reporting under CLRTAP in 2023	Benin – Strengthen SLCP planning and implementation while increasing capacity for methane mitigation	Liberia – Feasibility assessment for landfill gas capture and utilisation at two landfills in Monrovia
Gabon – Institutional strengthening to take SLCP action		Nigeria – Implement MRV for SLCPs in key sectors	Democratic Republic of Congo – Strengthen SLCP planning and advance mitigation action	Togo – Detailed roadmap for the efficient and sustainable management of municipal solid waste in the city of Lomé with a focus on the mitigation of SLCPs
Ghana – National Consultant		Zimbabwe – Integrate SLCPs within climate commitment plans and inventories	Côte D'Ivoire – Expand the SLCP planning and implementation process while increasing capacity for methane mitigation	Creating the enabling conditions for eliminating open burning of waste through regional roadmaps and city pilots
Guinea – Strengthen national planning processes for SLCP mitigation		Benin – Developing a national organic waste management and mitigation assessment	Cameroon – Develop a National SLCP Plan and National Methane Roadmap	Latin America and the Caribbean – accelerating project implementation and creating enabling conditions to reduce emissions

Institutional strengthening (cont'd)	Capacity-building and training (cont'd)	MRV (cont'd)	Policy development and implementation (cont'd)	Pilot and demonstration projects (cont'd)
Guinea – National expert in SLCP planning and implementation		Democratic Republic of Congo – Helping DR Congo to improve data and implement its NDC waste target	Colombia – Deliver National Methane Roadmap	Latin America and the Caribbean – achieving and scaling transformation in organics recovery across the Global South
Iraq – National Consultant		Central African Republic – Delivering a national methane emission and mitigation assessments for the waste sector	Costa Rica – Deliver National SLCP Plan and National Methane Roadmap	Africa – Mainstreaming Organic Waste Management in 11 African CCAC Countries
Cambodia – National Consultant		Cambodia – Improving Greenhouse Gas Inventory for the waste sector to Tier2 methodologies	Dominican Republic – Strengthen national SLCP planning and implementation processes while increasing action on methane mitigation	Moldova – Deliver manure management sub-sector strategy to inform NDC update and Strategy on Agriculture and Rural Development
Morocco – Hiring a National Consultant		Morocco – Develop landfill gas assessments, assessment of waste mitigation strategies, and MRV system for the waste sector	Micronesia – Support on methane policy, planning, and action	
Moldova – National Consultant			Ghana – Deliver National Methane Roadmap and develop NDC implementation plans on SLCP mitigation	
Mali – Strengthen national planning processes for SLCP mitigation			Ghana – Develop SLCP measures for 2025 NDC update	
Mali – Strengthening institutional capacity for SLCP mitigation			Cambodia – Deliver National Methane Roadmap	
Maldives – National Consultant			Liberia – Deliver National Methane Roadmap	
Mexico – National Consultant			Moldova – Develop a National SLCP Plan and National Methane Roadmap	

Institutional strengthening (cont'd)	Capacity-building and training (cont'd)	MRV (cont'd)	Policy development and implementation (cont'd)	Pilot and demonstration projects (cont'd)
Niger – National Consultant			Mexico – Deliver SLCP programme	
Nigeria – Coordinate Nigeria's National SLCP Unit			Niger – Develop a National SLCP Plan and National Methane Roadmap	
Nepal – National Consultant			Nigeria – Increasing implementation of actions to achieve Nigeria's SLCP targets	
Paraguay – National Consultant			Nepal – Develop a National SLCP Plan and National Methane Roadmap	
Rwanda – National Consultant			Panama – Deliver National Methane Roadmap and SLCP Roadmap focused on black carbon	
Senegal – National Consultant			Peru – Implementation of SLCP roadmaps and policy assessment	
Chad – National Consultant			Philippines – Finalise the Philippine's National Plan on SLCPs	
Togo – National Consultant			Philippines – Assisting with the finalisation of the National SLCP Plan	
Thailand – National Consultant			Pakistan – Deliver a National Methane Action Roadmap	
Jordan – Helping Jordan meet its NDC targets for the waste sector			Rwanda – Develop a National SLCP Plan and National Methane Roadmap	
			Senegal – Develop a National SLCP Plan and National Methane Roadmap	

Institutional strengthening (cont'd)	Capacity-building and training (cont'd)	MRV (cont'd)	Policy development and implementation (cont'd)	Pilot and demonstration projects (cont'd)
			Chad – Develop a National SLCP Plan and National Methane Roadmap	
			Uganda – Support national planning processes for SLCP mitigation and deliver National Methane Roadmap	
			Maldives – Increase mitigation in the Maldives's waste sector	
			Uganda – Sector strategy for organic waste management	
31 projects, 29 countries	8 projects, 7 countries	16 projects, 11 countries	36 projects, 29 countries	15 projects, 9 countries, 6 regions
