**STICHTING ENVIRONMENTAL  
INVESTIGATION AGENCY**

**FINANCIAL STATEMENT 2023**

## ***Introduction***

Stichting Environmental Investigation Agency (Stichting EIA) was incorporated in The Netherlands on 21<sup>st</sup> January 2013, with commercial register number 57039925 and RSIN 852413774, but has remained largely dormant since.. In 2019 the Board of Trustees of EIA UK decided, as a consequence of the UK leaving the European Union, to develop Stichting EIA to become a functioning office focusing on EU and Dutch environmental protection policy issues. This is in conformity with the Objective of the foundation which is: " *The preservation of wildlife and the habitat of wildlife, including combating global climate change and fighting deforestation*".

In September 2021 EIA submitted an application to the Dutch authorities for ANBI status, which included a Policy Plan for the organisation. On 9<sup>th</sup> September 2021 Stichting EIA was granted ANBI status. This policy plan has since been updated to cover the three-year period 2024 to 2026. A major strategic objective of the organisation over the next three years is to build an effective European policy office based in The Hague to advance EIA's campaign goals

EIA's mission is to protect the natural world by:

- Exposing environmental destruction and loss of biodiversity through uncompromising and innovative investigations
- Using this evidence and research to uncover environmental crimes and abuses and those responsible
- Campaigning for protection of the environment through better enforcement of environmental law, progressive policy-making and changes in consumer behaviour
- Developing effective partnerships and sharing skills and expertise

. EIA currently has three staff employed by EIA UK based in The Netherlands and desk space has been hired for them in The Hague Humanity Hub. These employees are helping to raise the profile of EIA in The Netherlands.

Stichting EIA currently has four Directors, two of which are employed by EIA UK (Julian Newman and Mary Rice) and two by EIA's US office (Allan Thornton and Alexander von Bismarck). The individuals do not, and will not, receive any remuneration for their role as Directors of Stichting EIA, except for legitimate expenses. All Directors have equal voting rights.
